Ardente is an initiative from the promoters of a business house that has been in to development for the last three decades and has delivered over 28,000 homes in Bangalore and Hyderabad. The promoters of Janapriya are the promoters of Ardente. Inspired by Bangalore's booming corporate, IT & Business population, Ardente was formed to create high end residential opportunities and cater to the aspirational lifestyle of the upwardly mobile executive.

Ardente's design philosophy is to maximise open spaces in each project through vertical developments. It shall work with leading architects across the world to achieve functional excellence and ergonomically suitable homes. Most of Ardente's designs would be upscale and bring freshness to the industry. Ardente shall ensure all spaces in the community are planned to detail before breaking ground.

Partnering with top project management companies, Ardente ensures high quality and timely delivery of apartments using German formwork construction technology. Ardente is totally committed to customer delight and enriching lifestyle through delivering a well thought through product and creating value for the buyer.
